

**DEPARTMENT OF COMPUTER SCIENCE
FEDERAL UNIVERSITY LAFIA**

First Semester Examination: 2019/2020 Date: Thursday, 6TH May 2021

CSC111: Introduction to Computer Science Credit Units: 3 Duration: 1Hr

General Instructions: Attempt all questions. Shade the correct option in your answer sheet. Clearly write your matriculation number and your department in the fields provided in the answer sheet.

- 1) The computer hardware comprises of:
 - a) Data and information
 - b) Hardware and software
 - c) **Electric, electronic and mechanical components**
 - d) Input and output
- 2) Computer software can broadly be categorized into:
 - a) Operating Systems and Utility programs
 - b) **System software and application software**
 - c) All of the above
 - d) None of the above
- 3) A _____ develops software or writes the instructions that directs the computer to process data into information.
 - a) **Programmer**
 - b) IT Engineer
 - c) Computer Wizard
 - d) Analyst
- 4) A computer that controls access to the hardware, software, and other resources on a network as well as provide centralized storage area for programs, data and information is called:
 - a) Mainframe
 - b) **Server**
 - c) Supercomputer
 - d) High performance computer (HPC)
- 5) _____ is a special purpose computer that functions as a component in a larger product.
 - a) Supercomputer
 - b) Mainframe
 - c) **Embedded computer**
 - d) Mobile computer
- 6) Embedded computers may be applicable in the following areas:
 - a) Process controllers and robotics
 - b) **Home automation devices**
 - c) All of the above
 - d) None of the above
- 7) Elements of an information system includes:
 - a) Hardware, Software, and Users
 - b) Data, Processing, and Information
 - c) **Hardware, Software, Data, People, and Procedure**
 - d) All of the above
- 8) The process of transferring data in an even and continuous flow is called?
 - a) Watching
 - b) **Streaming**
 - c) Live video
 - d) Online Television
- 9) Virtual reality is the use of computer to simulate a real or imagined environment that appears as a _____ dimensional space.
 - a) One
 - b) Two
 - c) **Three**
 - d) Four
- 10) Software is available through the following forms EXCEPT:
 - a) Open source
 - b) Cracked
 - c) Custom
 - d) **Shareware**
- 11) _____ is a collection of individual programs available together as a unit.
 - a) **Software suite**
 - b) Shareware
 - c) Packaged software
 - d) Custom software
- 12) A(n) _____ is an online area where users have written discussions.
 - a) FTP Program
 - b) text message
 - c) **newsgroup/message board**
 - d) Web browser
- 13) _____ is the electronic equivalent of a user manual.
 - a) Web based training
 - b) **Online Help**
 - c) E-learning
 - d) Distance learning
- 14) With _____, you can view, organize, sort, catalogue, print, and share digital photos.
 - a) Spreadsheet software
 - b) Clip art
 - c) **Photo management software**
 - d) Desktop publishing software
- 15) An enterprise computing software consists of
 - a) Human resource software
 - b) Accounting software
 - c) Option (b) only
 - d) **Options (a) and (b)**
- 16) _____ provides a means for sharing, distributing, and searching documents by converting them into a format that can be viewed by users.
 - a) Project management software
 - b) **Document management software**
 - c) Collaborative software
 - d) Note taking software
- 17) The leading manufacturers of personal computer processor chips are _____ and _____.
 - a) **Intel and AMD**
 - b) Microsoft and Apple
 - c) HP and Dell
 - d) Amazon and Intel
- 18) ASCII I is an acronym which refers to _____.
 - a) American standard code of interchange intelligence
 - b) **American standard code of information interchange**
 - c) American standard code of information intellects
 - d) American standard code of information intercom

CSC111: Introduction to Computer Science-Examination 2019/2020 Session

- 19) All the following are the types of ports except\
a) Media port b) Irda port
c) eSata port d) firewire port
- 20) USB ports can connect up to _____ different peripherals together with a single connector
a) 121 b) 80 c) 137 d) 127
- 21) A(n) _____, enhances functions of a components of the system unit and/or provides connections to peripherals.
a) Adapter card b) Expansion slot
c) Connectors d) System unit
- 22) RAM chip usually resides on a _____
a) Memory slot b) Memory chip
c) Memory module d) RAM chip
- 23) A keyboard designed to minimize strain on hands and wrists is called:
a) Ergonomic keyboard b) Portable keyboard
c) Folded keyboard d) None of the above
- 24) A small, flat, rectangular pointing device, sensitive to pressure and motion is called:
a) Mouse b) Trackball c) Touchpad
d) None of the above
- 25) _____ translates handwritten letters and symbols into characters that the system can understand
a) Optical Reader
b) Handwriting Recognition Software
c) Electronic Reader d) All of the above
- 26) The capturing, storing, analyzing, displaying, printing, and manipulating images is referred to as:
a) Graphics design b) Digitization
c) Image processing
d) Information Processing Cycle
- 27) MICR stands for:
a) Mark Identity Code Reader
b) Magnetic Ink Character Recognition
c) Micro Ink Character Reader
d) None of the above
- 28) A typical bar code will contain the following identification codes EXCEPT:
a) Manufacturer's code b) Check character
c) Item number d) Delivery code
- 29) What developments in computing will benefit physically challenged users?
a) Gesture recognition b) Implantation
c) All of the above d) None of the above
- 30) _____ is the sharpness and clarity of an image determined by it's number of pixels
a) Image quality b) Resolution
c) Dot matrix d) Codex
- 31) What is the full meaning of LED?
a) Light Emitting Diode b) Low Extensive Dial
c) Loud Emitting Device d) Load Extensive Dial
- 32) The following determines the quality of an LCD EXCEPT?
a) Resolution b) Response Time
c) Dot Pitch d) Tox
- 33) _____ is the number of horizontal and vertical pixels in a display device?
a) Restoration b) Resolution
c) Drops d) Sharpness
- 34) Nits is used to measure?
a) Sharpness b) Contrast
c) Filter d) Brightness
- 35) What is the full meaning of CRT?
a) Cathode-Ray Tube b) Cathode-Ray Type
c) Cathoide-Ray Time d) None of the above
- 36) A single device that can print, scan, photocopy is referred to as?
a) Multifunction Peripheral b) Multifax Printer
c) Modal Paint Device d) None of the above
- 37) _____ is used to produce high quality drawings?
a) Photoshop b) Camera
c) Plotters d) None of the above
- 38) A device designed to read information encoded into a small plastic card is?
a) Badge Reader b) Magnetic Tape
c) Card Puncher d) Tape Puncher
- 39) The output quality of a printer is measured by?
a) Dot per inch b) Dot per sq. Inch
c) Bit per inch d) None of the above
- 40) Hard disks, floppy disks and optical disks are all types of _____
a) direct access storage b) volatile access storage
c) Serial access storage d) Non-impact access storage
- 41) Components that provide internal storage to the CPU are
a) Registers b) Program Counters
c) Controllers d) Internal chips
- 42) RAID stands for _____
a) Redundant array of independent disks
b) Redundant array of individual disks
c) Reusable Array of independent disks
d) Reusable array of individual disks
- 43) A _____ operating system supports two or more processors running programs at the same time.
a) Multiusers b) Multiprocessing
c) Multiprogramming d) Multithreading

- 44) A _____ is a utility that reorganizes the files and unused space on a computer's hard disc so that the operating system accesses data more quickly and programs run faster
- a) Disk Defragmenter b) Disk Recovery
 - c) Disk Partitioner d) **Disk Clean up**
- 45) When you enter search criteria, instead of looking through every file and folder on the storage medium, the search utility looks through the _____ first to find a match.
- a) **Index** b) Buffer c) File manager d) Driver
- 46) SQL stands for?
- a) Structured Quantity Language
 - b) Structured Query Locator
 - c) System Query Language
 - d) **Structured Query Language**
- 47) All of these are examples of cybercrimes perpetrators EXCEPT?
- a) **Script Kiddies** b) Cyber-Posters
 - c) Cyberextortionists d) Cyberterrorists
- 48) A Program that hides in a computer and allow someone from a remote location to take full control is referred to as:
- a) **Virus** b) Worm c) Trojan-Horse c) Rootkit
- 49) A technique used by intruders to make their network or internet transmission appear legitimate is referred to as:
- a) Bootnet b) DDoS c) **Spoofing** d) Back Door
- 50) The process of converting readable data into unreadable characters to prevent unauthorized access is referred to as:
- a) Passwording b) CAPTCHA
 - c) Data-Security d) **Encryption**
- 51) _____ is an encrypted code that a person, website, or organization attaches to an electronic message to verify the identity of the sender. Often used to ensure that an impostor is not participating in an internet transaction.
- a) Digital Certificate b) Password
 - c) Two-Phase Verification d) **Bar-Code**
- 52) Popular security techniques used to safeguard against information theft include the following EXCEPT:
- a) Digital Certificates b) Transport Layer Security (TLS)
 - c) **Systems Lock** d) Secure HTTP
- 53) _____ is an applied science devoted to incorporating comfort, efficiency, and safety into the design of items in the in the workplace.
- a) Tendonitis b) **Ergonomics**
 - c) Human Comfort Design d) Techno-Engineering
- 54) All the following are health concerns resulting from the widespread use of computers EXCEPT:
- a) **Tendonitis** b)) Carpal Tunnel Syndrome (CTS)
 - b) Computer Vision Syndrome (CVS)
 - c) Adverse Computer Effect
- 55) _____ are the moral guidelines that govern the use of computers and information systems.
- a) Computer Security b) Computer Privacy
 - c) **Computer Ethics** c) Information Science
- 56) All the following may advance the agenda of green computing EXCEPT:
- a) Turning off monitor, printer, and other devices when not in use
 - b) **Using CRT monitors instead of LCD monitors.**
 - c) Use paperless methods for communication
 - d) Recycle old computers and other devices where possible.
- 57) The right of individuals to deny or restrict the collection and use of information about them is referred to as:
- a) Information Privacy b) Copyright
 - c) **Intellectual Property Right** d) Data Security
- 58) A _____ is a small text file that that a web server stores in your computer
- a) Bookmark b) Password
 - c) **Cookie** d) Landing Page
- 59) The process of restricting access to certain material on the web is known as:
- a) Access Control b) **Content Filtering**
 - c) Digital Monitoring d) Anti-Spam Controls
- 60) The act of gaining unauthorized access or obtaining confidential information by taking advantage of trust and naivety is broadly regarded as:
- a) Employee monitoring b) Social Engineering
 - c) **Phishing** d) Pharming
