

DEPARTMENT OF COMPUTER SCIENCE

Federal University Lafia

First Semester Examination 2019/2020

Date: Thursday, 6th May 2020

CSC111: Introduction to Computer Science Credit Units: 3 Duration: 1 1/2

General Instruction: Attempt all questions. Shade the correct option in your answer sheet. Clearly write your matriculation number and your department in the fields provided in the answer sheet.

1. Software is available through the following forms EXCEPT
a) open-source b) cracked c) custom ☒ d) shareware
2. A _____ operating system supports two or more processors running programs at the same time.
a) Multiusers ☒ b) Multiprocessing
c) Multiprogramming d) Multithreading
3. Hard disks, floppy disks and optical discs are all types of _____.
☒ a) direct access storage b) Volatile access storage
c) Serial access storage d) Non-impact access storage
4. A _____ is a small text file that a Web server stores on your computer.
a) Bookmark b) Password
☒ c) Cookie d) Landing Page
5. What is the full meaning of LED?
☒ a) Light-Emitting Diode b) Low Extensive Dial
c) Loud Emitting Device d) Load Extensive Dial
6. The output quality of a printer is measured by?
☒ a) Dot per inch b) Dot per sq. inch
c) Bit per inch d) None of the above
7. Components that provide internal storage to the CPU are _____.
☒ a) Registers b) Program Counters
c) Controllers d) Internal chips
8. The right of individuals and companies to deny or restrict the collection and use of information about them is referred to as:
☒ a) Information Privacy b) Copyright
c) Intellectual Property Right d) Data Security
9. A _____ is a utility that reorganizes the files and unused space on a computer's hard disk so that the operating system accesses data more quickly and programs run faster.
a) Disk Defragmenter ☒ b) Disk Recovery
c) Disk Partitioner ☒ d) Disk Clean up
10. _____ is the electronic equivalent of a user manual.
a) Web-based training ☒ b) Online Help
c) E-learning d) Distance learning
11. Computer software can broadly be categorized into:
a) Operating Systems and Utility programs
☒ b) System Software and Application Software
c) All of the above d) None of the above
12. All the following may advance the agenda of green computing EXCEPT:
☒ a) Turning off monitor, printer, and other devices not in use
b) Using CRT monitors instead of LCD monitors
c) Use paperless methods for communication
d) Recycle old computers, printers and other devices where possible.
13. Elements of an information system includes:
a) Hardware, Software and Users
b) Data, Processing, and Information
☒ c) Hardware, Software, Data, People, and Procedure d) All of the above
14. A _____ develops software or writes the instructions that direct the computer to process data into information.
☒ a) Programmer b) IT Engineer
c) Computer Wizard d) Analyst
15. _____ is the sharpness and clarity of an image determined by its number of pixels.
☒ a) Image quality b) Resolution
c) Dot Matrix d) Codex
16. All the following are health concerns resulting from the widespread use of computers EXCEPT:
☒ a) Tendonitis b) Carpal Tunnel Syndrome (CTS)
c) Computer Vision Syndrome (CVS)
d) Adverse Computer Effect (ACE)
17. _____ is the number of horizontal and vertical pixels in a display device?
a) Restoration ☒ b) Resolution
c) Drops d) Sharpness
18. A technique used by intruders to make their network or Internet transmission appear legitimate is referred to as:
a) Bootnet b) DDoS ☒ c) Spoofing d) Back Door

19. What developments in computing will benefit physically challenged users?
☒ a) Gesture recognition ☐ b) Implantation
☐ c) All of the above ☐ d) None of the above
20. The computer hardware comprises of:
☐ a) Data and information
☐ b) Hardware and software
☐ c) Electric, electronic and mechanical components
☒ d) Input and output
21. With _____, you can view, organize, sort, catalogue, print, and share digital photos.
☐ a) Spreadsheet software ☐ b) Clip art
☐ c) Photo management software
☒ d) Desktop publishing software
22. A Program that hides in a computer and allow someone from a remote location to take full control is referred to as:
☐ a) Virus ☐ b) Worm ☐ c) Trojan-Horse ☒ d) Rootkit
23. A computer that controls access to the hardware, software, and other resources on a network as well as provide centralized storage area for programs, data, and information is called:
☐ a) Mainframe ☒ b) Server ☐ c) Supercomputer
☐ d) High Performance Computer (HPC)
24. The process of transferring data in an even and continuous flow is called?
☐ a) Watching ☒ b) Streaming
☐ c) Live-Video ☐ d) Online-Television
25. The following determines the quality of an LCD EXCEPT?
☒ a) Resolution ☐ b) Response Time
☐ c) Dot Pitch ☐ d) Tox
26. _____ translates handwritten letters and symbols into characters that the computer can understand.
☐ a) Optical Reader
☒ b) Handwriting Recognition Software
☐ c) Electronic Reader ☐ d) All of the above
27. USB port can connect up to _____ different peripherals together with a single connector
☐ a) 121 ☐ b) 80 ☐ c) 137 ☒ d) 127
28. _____ are the moral guidelines that govern the use of computers and information systems.
☐ a) Computer Security ☐ b) Computer Privacy
☒ c) Computer Ethics ☐ d) Information Science
29. When you enter search criteria, Instead of looking through every file and folder on the storage medium, the search utility looks through the _____ first to find a match.
☐ a) Index ☒ b) Buffer ☐ c) File manager ☐ d) Driver
30. A single device that can print, scan, photograph referred to as?
☒ a) Multifunction Peripheral ☐ b) Multifax printer
☐ c) Modal Paint device ☐ d) None of the above
31. A(n) _____ is an online area where people have written discussions.
☐ a) FTP program ☐ b) File Transfer
☒ c) newsgroup/message board ☐ d) Web page
32. A typical bar code will contain the following identification codes EXCEPT:
☐ a) Manufacturer's code ☐ b) Check character
☐ c) Item number ☒ d) Delivery code
33. _____ is a collection of individual resources available together as a unit.
☒ a) software suite ☐ b) Shareware
☐ c) Packaged software ☐ d) Custom software
34. A keyboard designed to minimize strain on hands and wrists is called:
☒ a) Ergonomic keyboard ☐ b) Portable keyboard
☐ c) Folded keyboard ☐ d) None of the above
35. All the following are the types of ports except:
☒ a) Media port ☐ b) Irda Port
☐ c) eSata port ☐ d) firewire port
36. RAID stands for _____
☒ a) Redundant array of independent disks
☐ b) Redundant array of individual disks
☐ c) Reusable Array of independent disks
☐ d) Reusable array of individual disks
37. _____ is a special-purpose computer that functions as a component in a larger product.
☐ a) Supercomputer ☐ b) Mainframe
☒ c) Embedded computer ☐ d) Mobile computer
38. MICR stands for:
☐ a) Mark Identity Code Reader
☒ b) Magnetic Ink Character Recognition
☐ c) Micro Ink Character Reader
☐ d) None of the above
39. _____ is an applied science devoted to incorporating comfort, efficiency, and safety into the design of items in the workplace.
☐ a) Tendonitis ☒ b) Ergonomics
☐ c) Human Comfort Design ☐ d) Techno-Engineering
40. The capturing, storing, analysing, displaying, printing, and manipulating images is referred to as:
☒ a) Graphics Design ☐ b) Digitization
☐ c) Image Processing
☐ d) Information Processing Cycle

41. The leading manufacturers of personal computer processor chips are _____ and _____.
a) Intel and AMD b) Microsoft and Apple
c) HP and Dell d) Amazon and Intel
42. Popular security techniques used to safeguard against information theft include the following EXCEPT:
a) Digital Certificates b) Transport Layer Security (TLS)
c) Systems Lock d) Secure HTTP
43. RAM chip usually resides on a _____.
a) Memory slot b) Memory chip
c) Memory module d) Ram chip
44. The act of gaining unauthorized access or obtaining confidential information by taking advantage of trust and naivety is broadly regarded as:
a) Employee monitoring b) Social Engineering
c) Phishing d) Pharming
45. _____ provides a means for sharing, distributing, and searching through documents by converting them into a format that can be viewed by users.
a) Project management software
b) Document management software
c) Collaborative software d) Note taking software
46. A Small, flat, rectangular pointing device, sensitive to pressure and motion is called.
a) Mouse b) Trackball c) Touchpad
d) None of the above
47. All of these are examples of cybercrimes perpetrators EXCEPT:
a) Script Kiddies b) Cyber-Posters
c) Cyberextortionists d) Cyberterrorists
48. _____ is an encrypted code that a person, Web site, or organization attaches to an electronic message to verify the identity of the sender - Often used to ensure that an impostor is not participating in an Internet transaction
a) Digital Certificate b) Password
c) Two-Phase Verification d) Bar-Code
49. A device designed to read information encoded into a small plastic card is?
a) Badge Reader b) Magnetic Tape
c) Card Puncher d) Tape Puncher
50. An enterprise computing software consists of:
a) Human resource software
b) Accounting software
c) Option (b) only d) Options (a) and (b)
51. SQL stands for?
a) Structured Quantity Language
b) Structured Query locator
c) System Query Language
d) Structured Query Language
52. Virtual reality is the use of computers to simulate a real or imagined environment that appears to be a _____ dimensional space.
a) One b) Two c) Three d) Four
53. A(n) _____ enhances functions of a component of the system unit and/or provides connections to peripherals.
a) Adapter card b) Expansion slot
c) Connectors d) System unit
54. The process of converting readable data into unreadable characters to prevent unauthorized access is known as:
a) Passwording b) CAPTCHA
c) Data-Security d) Encryption
55. The process of restricting access to certain material on the Web is known as:
a) Access Control b) Content Filtering
c) Digital Monitoring d) Anti-Spam Controls
56. What is the full meaning CRT?
a) Cathode-Ray Tube b) Cathode-Ray Type
c) Cathode-Ray Time d) None of the above
57. Embedded computers may be applicable in the following areas:
a) Process controllers and robotics
b) Home automation devices
c) All of the above d) None of the above
58. _____ is used to produce high quality drawings?
a) Photoshop b) Camera
c) Plotters d) All of the above
59. ASCII is an acronym which refers to _____.
a) American Standard code of interchange intelligence
b) American Standard code of information interchange
c) American Standard code of information intellects
d) American Standard code of information intercom
60. Nits is used to measure?
a) Sharpness b) Contrast
c) Filter d) Brightness
